WHIG STATE NOMINATIONS. FOR PRESIDENT,

HENRY CLAY, FOR GOVERNOR, LUTHER BRADISH, OF FRANKLIN CO.
FOR LIEUT. GOVERNOR,

GABRIEL FURMAN, of kings.

Election, November 8-(one day only.)

WHIG YOUNG MEN —A special meeting of this Com-mittee will be held on Monday evening, September 12th,

1842, at 8 o'clock. By order, ADDISON DOUGHERTY, Chairman. S. D. JACKSON, CHAS. K. TAYLOR, Secretaries.

IIT The WHIG YOUNG MEN'S STATE CONVENTION meets at AUBURN on Wednesday the 21st inst, (just two weeks after the nominations.) We hope to meet there a glorious gathering of the Young Whigsof New-York.

Justice to Harry of the West.

The Whig State Convention having unanimously responded to the People's Nomination of HENRY CLAY as the Whig Candidate for next President, we this morning place his name at the head of our columns, there to remain until he has been elected to the high station which he has so richly deserved, and which he is so eminently qualified to adorn. Under other circumstances, we should have thought proper to await a National nomination, but the entire unanimity of the Whig party from Maine to Louisiana seems to obviate all necessity for a National Convention. We regret that it has been deemed expedient to call one for the nomination of a Vice President. We would rather have trusted to an ultimate unanimity among the States, or even have referred the matter to the decision of the Whig Members of Congress.

FRIENDS OF HENRY CLAY! his banner is uplifted by the Whig State Convention of New-York, and the defeat of our State Ticket will be blazoned through the Union as the defeat of Mr. Clay. Need we say another word to inite you to activity, energy and perseverance in the contest now begun?

Whig State Convention.

The Delegates chosen by the Whigs of the several Counties of this State to nominate candidates for Governor and Lieutenant Govornor assembled in Convention at Syracuse on Wednesday, 7th, at

On motion of JOHN A. KING of Queens, Hon. CHARLES H. CARROLL of Livingston Co, was chosen President, with the eight Vice Presidents published in our last, and the following Secretaries:

DAVID D. SPENCER, of Tompkins; JARVIS N. LAKE, of Herkimer; D. A. BOKEE, of Kings; A. W. CLARK, of Lewis.

The President made a few pertinent and forcible remarks on assuming the Chair.

Hon. ANTHONY C. BROWN of St. Lawrence presented the name of Hon. LUTHER BRA-DISH of Franklin as the candidate of the Whig party for Governor in the ensuing Election, which was unanimously adopted.

Mr. PATTERSON of Broome Co., presented the name of Hon. GABRIEL FURMAN of Kings the Whig candidate for Lieutenant Governor, which was in like manner unanimously adopted. Gen. ERASTUS ROOT, of Delaware, after as eloquent and stirrring address, moved a resolution

NOMINATING HENRY CLAY, of Kentucky, AS THE WHIG CANDIDATE FOR NEXT PRESIDENT OF THE UNITED STATES, and pledging to his support the united and untiring exertions of the members of this Convention. Adopted unanimously. On motion of JOHN S. VAN RENSSELAER, of

Albany, the Convention resolved to recommend a Whig National Convention at Baltimore, at such time as the Whig Members of Congress may deem expedient, to nominate a candidate for Vice On motion of PHILIP HONE, of New-York, the

thanks of the Convention were tendered to Hon. N. P. TALLMADGE and the Whig Representatives from this State for their ardent, zealous and successful labors in behalf of their constituents during the recent protracted session, in the face of unforeseen discouragements and unparalleled Executive perfidy.

The following Delegates were appointed a Committee to prepare and publish an Address to the People of the State in behalf of this Convention: T. M'ELRATH, New-York, G. M. WILKINS, Westchester, P. B. PORTER, Ningara, D. A. BOKEE, Kings, R. G. RANKIN, Dutchess. The Convention then adjourned to 7 o'clock, P.

M. when it was addressed with thrilling eloquence and effect by Hon. N. P. TALLMADGE, of this State, and Hon. JAMES T. MOREHEAD, of Kentucky. The Sessions of the Convention were held in the Baptist Church, and a crowded auditory were in attendance on its deliberations.

[All the Counties in the State but two or three small and remote ones, were fully represented .-On the first informal ballot, the vote for Governor stood, Bradish 84, Collier 33, Seward 1. For Lieutenant Governor, Mr. Collier having peremptorily declined, Mr. Furman was preferred by the Delegates from the South-Western Counties, and at once nominated without opposition.]

The Convention separated in perfect harmony and with confident assurances of a signal Whig victory in November.

IF The Loco-Focos chuckle at the idea that their State nominations were made with entire unanimity, while the Whig Convention was at first divided. That is rather a bad omen for them. In 1830 we nominated with entire unanimity, while they were all in a snarl, yet they beat us scandalously. In 1838, we had a sharp canvass for the nomination, while they were all one way, yet we beat them by 10,000. The fact is, the party that is to beat naturally has more competition for its nominations than that which is to be beaten.

The Dinner to Hon. JOHN C. CALHOUN at the Shocco Springs, North Carolina, took place on the second day after the adjournment of Congress. As no notice had been given of the time, the attendance was not numerous. Hon. Messrs. R. M. Saunders and R. J. Daniel, Members of Congress, were of the party. Mr. Calhoun made a speech-of course, a strong one-which, if reported, has not yet appeared. He departed next morning for Raleigh.

The Loco-Focos of Massachusetts have nominated Marcus Morton for Governor and H. H. CHILDS for Lieutenant Governor.

IF John G. Floyd, received one vote for Congress in the Van Buren Convention of Oneida Co.

Served him right!'

Young Men's State Convention.

The Whigs throughout the State of New-York will bear in mind that a Young Men's STATE CCOVENTION will assemble at Syracuse on Wednesday, the 21st inst., to adopt measures for securing the signal triumph of the Whig cause in the approaching Election.

The state of affairs does not require the assembling of so immense a Convention as that which gathered at Syracuse two years ago. Now that the Destructive tendencies of Loco-Focoism are clearly seen to demand the sacrifice of our Internal Improvements, it must be that the People will rally almost spontaneously to secure the overthrow of the Architects of Ruin. But the New Election Law, reducing our Three Days of Election to One, and dividing our Towns and Wards inte Election Districts, impress on the Whigs the necessity of a new and more thorough ORGANIZA-TION. To this end every effort should be directed. To this end, our friends in the several Counties should take care to secure the attendance at Syracuse of at least one active, intelligent, indefatigable Whig from each Township and Ward, to unite in devising and adopting the means best adapted to perfect such Organization. And the Young Men of the Central Counties, who will very naturally be there in larger numbers, should select from their several Towns one or more Delegates best calculated to aid in devising the means for calling out the full Whig vote of the State on the 8th o November next. Nothing more is needed to seore an overwhelming victory.

WHIG YOUNG MEN OF NEW-YORK! important and far-reaching results, vitally affecting our Country's destiny, depend on the issue of our State Election. Shall we not have a full, enthusiastic and glorious gathering at our Young Men's Con-

VERMONT .- We have a few scattering returns from each side of the Mountains, which convince is that the Whigs have every thing. Six towns in Windsor and two in Rutland County elect 7 Whigs and I Loco-Foco to the Legislature. Four of them vote for Governor as follows:

The Herald announces Bradish and Fillmore as the Whig candidates! 'No other paper has the news.

WHITE WATER VALLEY CANAL COMPANY .-This Company is fully organized, and the work on the Canal will be pushed forward vigorously. That portion of the Canal lying between Brookville and Laurel has been put under centract, at prices 20 per cent. lower than the late estimate of the engineer; and, owing to these favorable terms, the directors have resolved to put out work about the 1st of October, to the amount of one hundred thousand dollars between Laurel and the

The Brooklyn Evening Star expresses its high gratification at the selection of GABRIEL FUR-MAN as the Whig candidate for Lieutenant Governor, and adds:

BRISTOL'S SARSAPARILLA.-We have had occasion to try the virtues of this excellent preparation in our own family the virtues of this excellent preparation in our own family, and can truly add our own to the numerous testimonials of its superior efficacy. Two of our little ones had for a long time been troubled with an extensive cutaneous eraption, extending over the hands, and arms, and exhibiting itself in frightful sores on various parts of the body. We had recourse to Bristol's Sarsaparilla, and in the space of about two months had the satisfaction of seeing the sores healed, the eraption to disappear, and the skin to resume its former healthful appearance.

Things in Philadelphia.

PHILADELPHIA, Sept 9, 1842 Considerable excitement has existed for a week r two past among the weavers, who form so large a portion of our suburban population. Their turnout for wages, and compulsory treatment of those who refuse to join in the measure, have already resulted in several disgraceful outbreaks and some loss of property. Notwithstanding their numbers, however, there will be no excesses that the Police will not be able to keep in check.

The preposterous paragraph now going the rounds in relation to Milton J. Alexander, soon to have his trial for the murder of Mr. Lougee, in our city, is calculated to do the miserable young man serious injury. The idea of \$50,000 being subscribed in Burksville, the residence of his famly, to procure his acquittal, as is asserted in the Bairdsville (Ky.) Gazette, is very improbable. If it were true, the public announcement of the fact would of itself defeat the object intended to be accomplished; and, therefore, viewed in any light, the parading of such paragraphs is pernicious and will operate to the prisoner's disadvantage. The plea of insanity, intended to be made, is the only one that can hold out a hope of escape; but if his friends are not more judicious they will defeat even that hope.

The fights and brutal violence exhibited among a portion of our up-town Firemen are becoming more frequent, and if possible, more disgraceful. At a fire on Thursday, the buildings were consumed while the Firemen were engaged in a regular pitched battle, that resulted in the capture and actual carrying away of an engine, belonging to the beaten and defeated company. Such acts render our Fire Department so exceedingly discreditable that a change must be effected in the whole system. And all this injury is sustained, notwithstanding three-fourths of this useful class of citizens are as quiet, respectable persons as any in the city, and are as anxious for the credit of the Fire Department. But the noisy, clamorous few manage to keep the whole body in arms, thoroughly disgracing themselves and the city.

BOY SHOT BY HIS BROTHER .- On the 3d ult. while two boys, one about fourteen and the other eight years old, sons of Mr. Peter Johnson, living in the edge of Orono on Essex-street, were out on a gunning excursion in the woods, the oldest boy attempted to fire at some object in a tree, when the rifle missed fire, and on bringing it down to examine the lock, it went off, and the whole charge of shot entered the neck of the little boy, who was about ten feet distant, just below the jaw-bone and a little in front of the ear, and came out upon the apposite side, killing him instantly. They were about a mile in the woods, and after in vain trying to stanch the wound and to revive consciousness, he took his dead brother in his arms and proceeded homewards, until overcome with grief and fatigue he laid the body on the grass, adjusted the limbs, and started for home to convey the and news to the parents and surviving brothers and sisters. DISCOVERY OF SALT IN YATES COUNTY .- At Dundee, in Yates County, very valuable salt springs have been found on and near what is called Big Stream. In boring, when at the depth of about ten feet, very strong brine was found; and at the depth of seventy-five feet the brine is supposed to be as strong as any at the Onondaga saines. The present belief of Mr. Hulbert (who conducted the boring) is, that his bore discharges vixty gallons of brine per hour; and this brine, on being boiled in a common kettle, yielded at the rate of two pounds of salt for every twenty-four quarts of the water. If this turns out so as to ful-I present expectation, it will be a very valuable discovery. Dundee is within two miles of Seneca Lake, and twelve miles from Penn Yan. Good wood is plenty, and can be had for ten or twelve

FORTUNATE ESCAPE .- A letter from Beaufort uforms us that the large congregation of Baptists in that place have mercifully escaped a catastrophe the very thought of which fills the imagination with horror. The house in which they have worshipped for many years is of tabby. The buildng was erected during the last century, and was then very small. The increase of members has required two enlargements-so that the place is now apable of holding perhaps a thousand persons. The consequence of these additions is, that walls originally designed for a small roof have had to receive a heavy one, and this superincumbent load, with the crowds in the galleries, have caused the walls to give way. It was by a very slight circumstance that the attention of one or two persons was attracted to the state of the building-when it was found that for some time past hundreds of people have been assembling, subbath after saboath, in a house on the point of falling.

[Charlestown Courier. Association .- * * The chief improvenent of Fourier upon the systems of other reformers is, that he establishes a community of interest merely, and not of property. We see it stated that in McKean County, in this State, a colony of one hundred families, which is still increasing has been established about 12 miles from Smithfield, where a Society of Germans bought 37,000 acres of land at \$2 25 per acre, payable in seven years. They have already cleared 600 acres, and given 200 under contract; a steam saw mill is in operation and a grist mill will soon be erected. Mr. Ginal, a Universalist Preacher, in Philadelphia, is the founder of this Society, wherein the doctrines of Fourier will be carried out. The Society has branches all over the United States, and there will be in a short time a large number of Germans settled and in full operation to turn the woods into blooming

fields of Wheat and Rye. There is another Colony, already four years in existence, in Herman, Gasconade County, Mo., where about 600 Germans are in full operation in the farming business. [Lanc. (Pa.) Ex. & Her.

Saturday evening, July 18, 1838.
E. BARTLETT, Esq., Consul for United States, Lima. The long letter from the Commodore was next read. It

described the transaction at great length, and abused Hodg son in good set terms. The reply of the Consul to the Com dore was not read. It merely acknowledged the receiv of the package, and said that Mr. Hodgson had never sp ken to the writer in any but respectful terms of the Comm

dore,

Licut. Glendyre-called, for the purpose of ascertaining is he was correct when he said that Lieut. Ingersoll copied the letter in the presence of Mr. Hodgson. The witness said was only present when the order was given to copy the letter, and not when it was taken, for neither himself nor Mr. Hodgson were present at that time. He made no objection that I can recollect. Mr. Hodgson's permission was not requested before the order was given to copy the letter.

that the charge was officially disposed of by Mr. Paulding, while at the head of the Navy Department. The Judge Advocate replied that the official acts could not be proven by the files of the Department.

Mr. Ingersoll said it would be shown by the examination whether there was any record of it or not. The Judge Advocate insisted that if there was no record, was not official. He reduced the objection to writing, and the Court, after consultation, sustained the objection. George F. Purser Wilson examined. On or about the 14th of July, 1838, I was sitting in the after cabin of the ship North Carolina. A Midshipman came in haste in the afternoon and asked for the Commodore. I heard the Midshipman say, "here is a letter for you, Commodore." Inimediately after I saw the Commodore with a letter, which he was opening. He threat the myslope on the deck, laid the contents down. He threw the envelope on the deck, laid the contents down with the exception of one letter, which he opened and held under the sky-light, as it was quite dark in the cabin, and which was usually kept dark. With his eye-glass he commenced reading it. After a short time reading, he laid it suddenly on the table, and observed, "this cannot be for me," giving me the impression that he had opened a letter which was not intended for him. At that moment I left the cabin on dary. He threw the envelope on the deck, laid the conte

To Sensible Citizens - We know from what we see an feel, that the animal body is in its organs and functions sul ject to derangement, inducing pain and tending to its destruction. In this disordered state we observe Nature providing for the re-establishment of order by exciting som solitary evacuation of the morbific matter, or by some other operation, which escapes our imperfect senses and researches. In some cases she brings on a crisis by the bowels, at others by sweating, &c. &c.

Now experience has taught us that there are certain substances by which, applied to the living body, internally or externally, we can at will produce the same evacuations, and thus do in a short time what Nature could do but slowly, and do effectually what she might not have strength to accomplish. When, then, we have seen a disease cured by a certain NATURAL evacuation, should that disease occur again, we may count upon curing it by the use of such substances as we know bring about the same evacuation which we had before observed to cure a similar disease. It is in consequence of the power which the

BRANDRETH PILLS exert upon the whole system, that makes them so universally beneficial. It is because they impart to the body the power to expel disease without leaving any evil effect.

As a general Family Medicire, BRANDRETH'S PILLS are, it is believed by the proprietor, superior to every other offered to the public. And when the manner of preparing the ingredients of which they are composed shall be pub

to bail and by forfeiting his recognizances escaped to Massa-chusetts, where he was arrested for a robbery committed in Boston and sent to the State Prison there for three years, whence he recently emerged. This Smith is the same bold and accomplished burglar and thief who robbed the City licly known, the public will be of the same opinion. Some three months ago Dr. Brandreth entered a CAVEAT with a general statement of the manner is which he prepares his extracts from the roots of various plants, and is about six | bbls. on private terms. weeks afterward out comes a New Extract of Sarsapa-RILLA, and a machine is spoken of. Now it is rather singular that this method should not have been discovered until after Doctor Brandreth's statement had been filed in the Patent Office. No machine was ever used until Doctor B. Brandreth invented the one he uses. When the patent shall have been fully secured in England, and on the continent of Europe, then the public will have the manner of preparing the ingredients of the Brandreth Pills fully explained, and a model of the machine used in the process exhibited. But this be will add-that there is more of the active principle of Sarsaparilla in one twenty-five cent box of his Pills, than in two dollar bottles of any fluid extract of Sarsaparilla on earth, unless the Sarsaparilla is prepared in the same manaer that Dr. Brandreth prepares his Sarsaporilla and the other ingredients forming a component of the

now he is about to try another system. That, by the way, is just what almost every body is doing. For some years, in cases of bilious complaints, dyspepsia, jaundice, cholic, costiveness, hearthurn &c., people have taken all sorts of medicine—they themselves carcely knew what. But now they are rejecting them, backing out as Captain Tyler is from the Land Distribution, &c., and using nothing in the world but the fameas Lozenges and Pilis of Dr. Peters which infallibly cure all these diseases. His Plasters also are invaluable for all rhounantic pains. His warehouses are at 459 Broadway and 125 Folton-street. BRANDRETH'S PILLS. FRIDAY P. M. At the Brokers' Board to-day there was but little dans excepting in Harlem, in which there appears to be a renewal of the speculative feeling which caused such large perations a short time since. Nearly 1,200 shares were sold day, closing at 16, an advance of 1 per cent. Stocks generally were not firm, and the impetvs they lately received has been lost. Delaware fell off ‡. A sale of New-Jersey was made at 64, seller, 12 mos.

In State Stocks the transactions were small, yet the prices xhibit considerable firmness. Still there is not so much inquiry as within a week past. City Water Loan, 1870, improved 1 per cent.; Ohio Sixes 1 per cent. The 'Fancies' were not so firm. The transactions were-
